

GAMIVO PRE-ORDER Policy:

The Merchant may sell PRE-ORDER offers through the Service.

PRE-ORDER offers should be delivered to GAMIVO by the Merchant on the day before the release date at 23:59 CET. Upon the Merchant's request this time can be prolonged to 16:59 CET next day. In order to do so, Merchant should contact GAMIVO Customer Support at least 1 day earlier.

The Merchant may change the value of the declared selling price of a given PRE-ORDER offer. However, it has no impact on the amount of the aforesaid PRE-ORDER advance accrued by GAMIVO if the Customer has previously submitted an offer to purchase the given PRE-ORDER offer.

If the Merchant does not deliver keys in above mentioned time range, GAMIVO is obligated to charge 6% of the value of each PRE-ORDER offer from the available balance.

GAMIVO will keep the Merchant's pending balance during particular time schedules. Please check details:

- first 15% of the pending balance for sold PRE-ORDERS will be released according to the regular payout conditions;
- the next 35% of the pending balance for sold PRE-ORDERS will be released 1 month before the release date;
- the rest 50% of the pending balance for sold PRE-ORDERS will be released after 10 days after the release date.

NOTE: If PRE-ORDER is set no longer than 1 month before the release date, 50% of pending balance will be released right after the sales, according to the regular payout conditions.
